SkillTek Portal - Software Bug Report

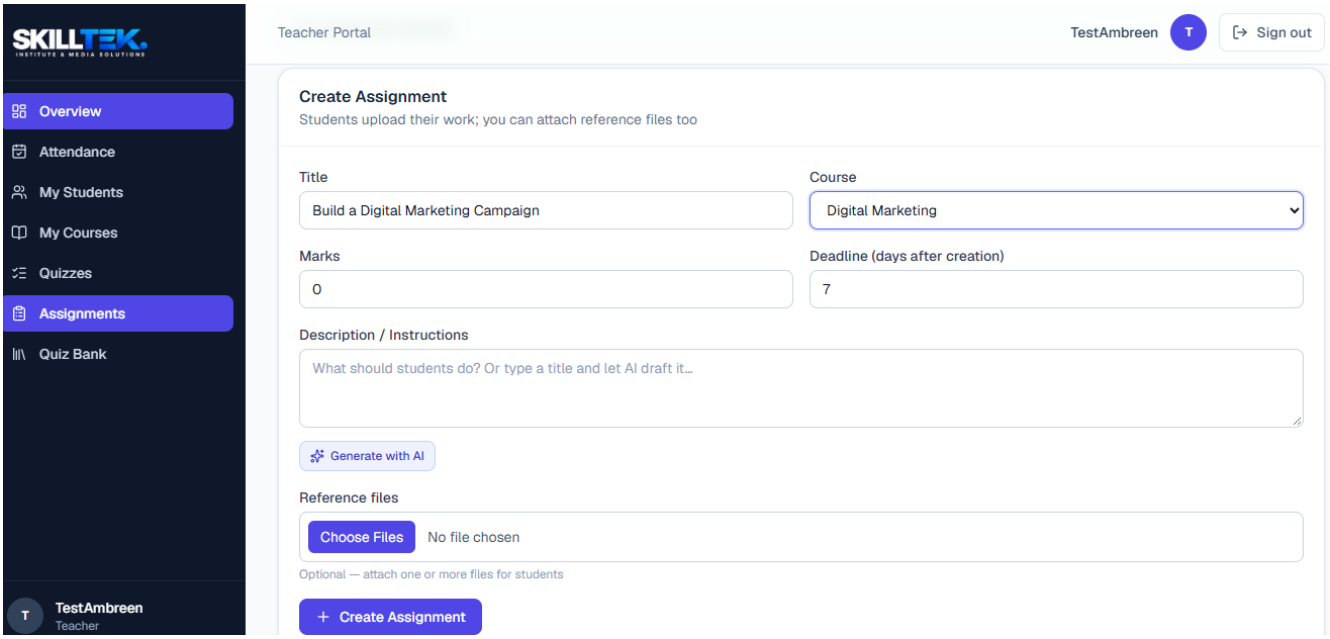

QA Test Execution & Defect Documentation

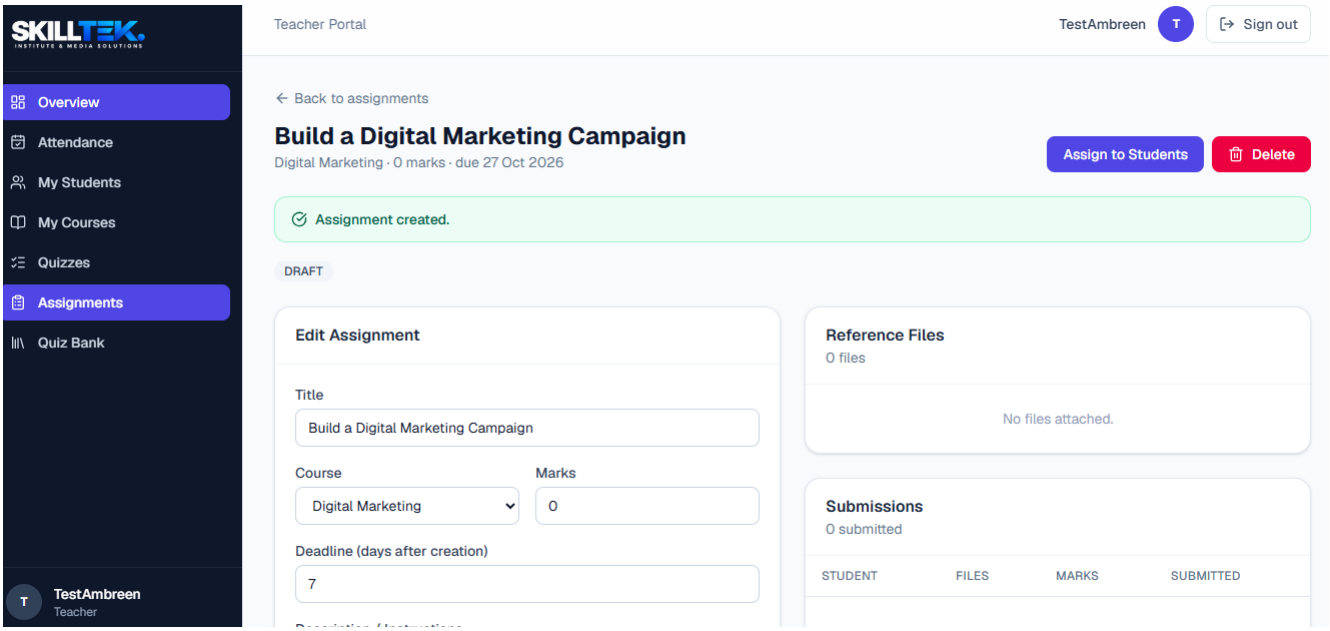

This document contains a clear breakdown of defects discovered during the Quality Assurance testing of the SkillTek Admin and Teacher Portals. Each bug report includes a simple description, step-by-step reproduction instructions, expected versus actual results, and visual evidence mapping.

[BUG-01] Assignment Created with 0 Total Marks

Module	Teacher Portal - Assignments
Description	The system allows teachers to create and publish assignments with 0 total marks without showing any validation error.
Steps to Reproduce	1. Log in to the Teacher Portal. 2. Navigate to the 'Assignments' section from the left menu. 3. Fill in the Assignment Title (e.g., 'Build a Digital Marketing Campaign'). 4. Select a Course from the dropdown. 5. Enter '0' in the Marks input field. 6. Click the 'Create Assignment' button.
Expected Result	The system should validate the Marks field and block form submission with an error message like 'Marks must be greater than 0'.
Actual Result	The system accepts 0 marks and successfully creates the assignment without any error.
Visual Evidence	Screenshot 1 & Screenshot 2 (Shows form filled with 0 marks and the resulting created assignment displaying 0 marks).

Screenshot 1 & Screenshot 2

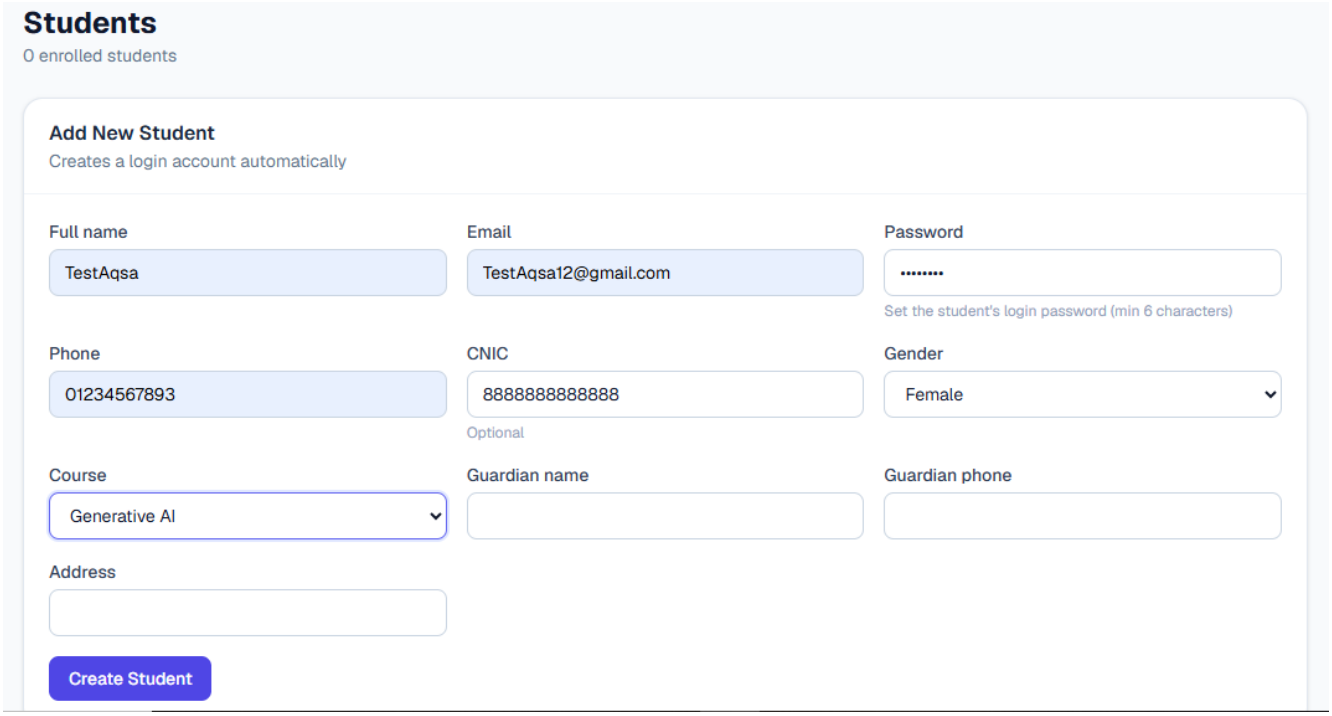

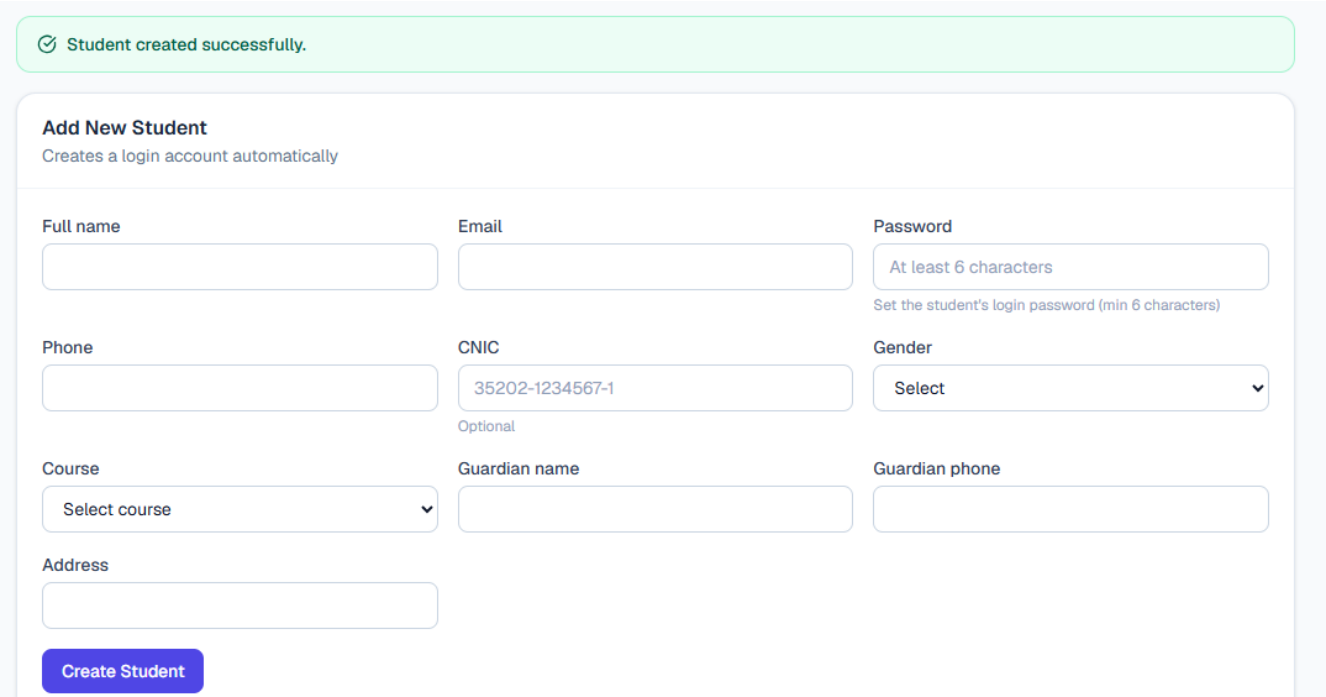

[BUG-02] Student Account Created with Invalid CNIC and Phone Number

Module	Admin Portal - Students
Description	The Add Student form lacks field validation, allowing student creation with repeated fake numbers in CNIC and incomplete phone numbers.
Steps to Reproduce	1. Log in to the Administrator Portal. 2. Navigate to the 'Students' section. 3. Fill in the required details (Name, Email, Password, Course). 4. Enter an invalid phone number (e.g., '01234567893' - 10 digits). 5. Enter an invalid CNIC pattern (e.g., '8888888888888' - repeated numbers

	without proper hyphens/format). 6. Click 'Create Student'.
Expected Result	The system should enforce proper validation rules for valid 11-digit phone numbers along with country code and standard 13-digit CNIC format (XXXXX-XXXXXXX-X) before accepting the form.
Actual Result	The form submits successfully and displays 'Student created successfully' message with invalid contact data.
Visual Evidence	Screenshot 3 & Screenshot 4 (Shows form filled with invalid CNIC/Phone and success notification after submission).

Screenshot 3 & Screenshot 4

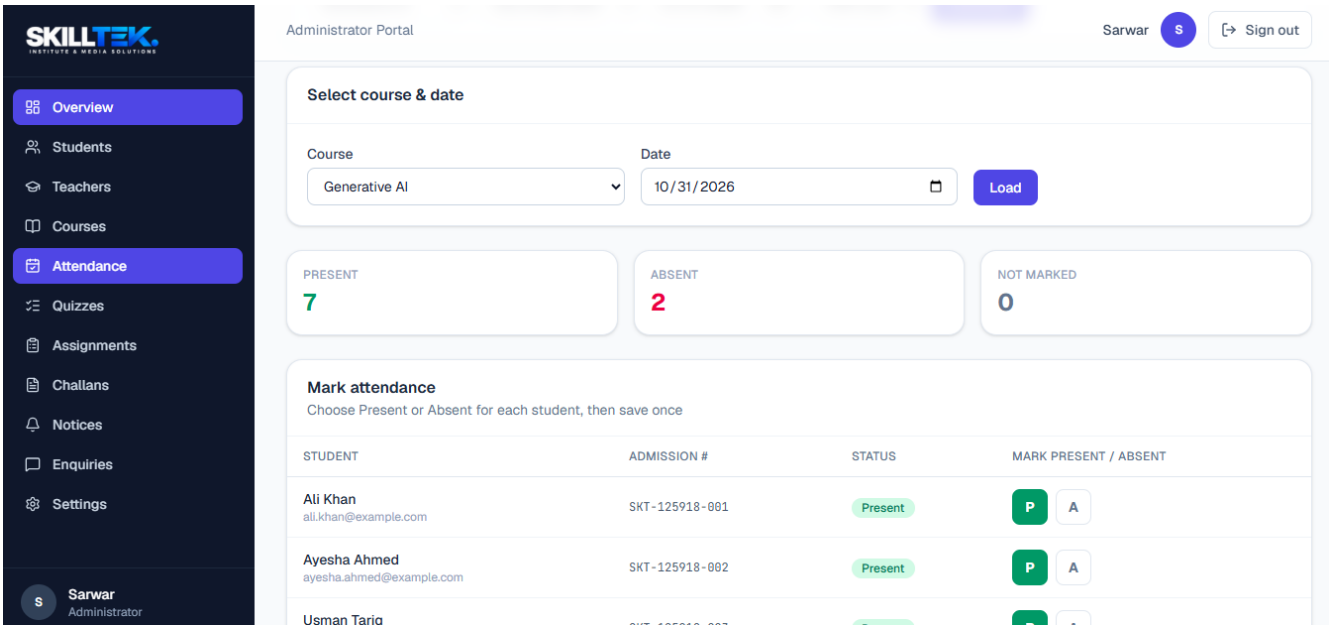

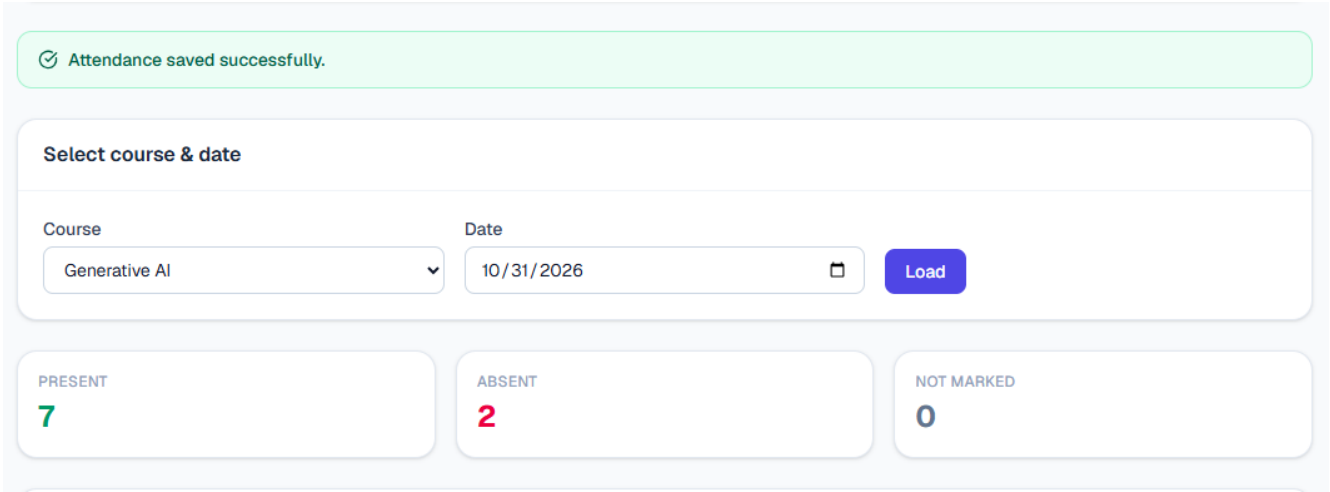

[BUG-03] Attendance Can Be Marked for Future Dates

Module	Admin Portal - Attendance
Description	The attendance module allows administrators to select future dates (e.g., October 31, 2026) and successfully record student attendance ahead of time.
Steps to Reproduce	1. Log in to the Administrator Portal. 2. Navigate to the 'Attendance' section. 3. Select a Course from the dropdown. 4. Pick a future date from the Date picker (e.g., '10/31/2026'). 5. Click 'Load'. 6. Mark students as Present or Absent and click 'Save Attendance'.
Expected Result	Future dates should be disabled in the calendar picker, or the system should show an error stating 'Attendance cannot be marked for future dates'.
Actual Result	The system loads the student list for future dates and successfully saves the attendance record with 'Attendance saved successfully' message.
Visual Evidence	Screenshot 5 & Screenshot 6 (Shows future date 10/31/2026 selected and attendance saved successfully).

Screenshot 5 & Screenshot 6

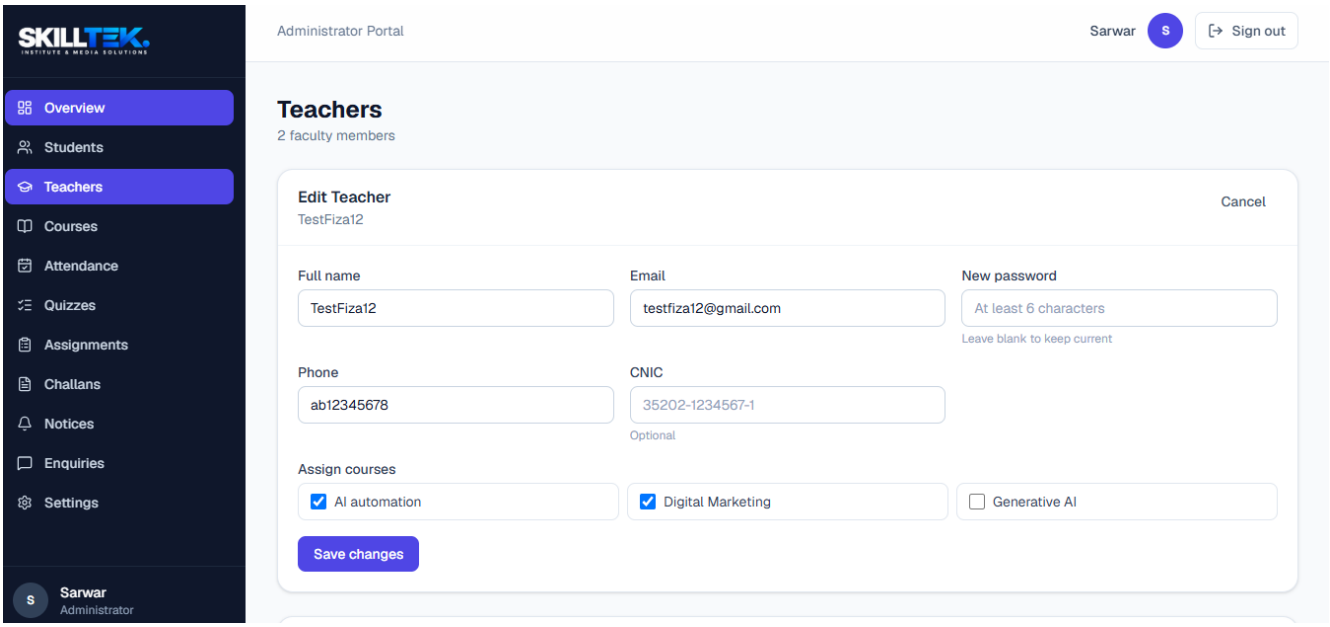

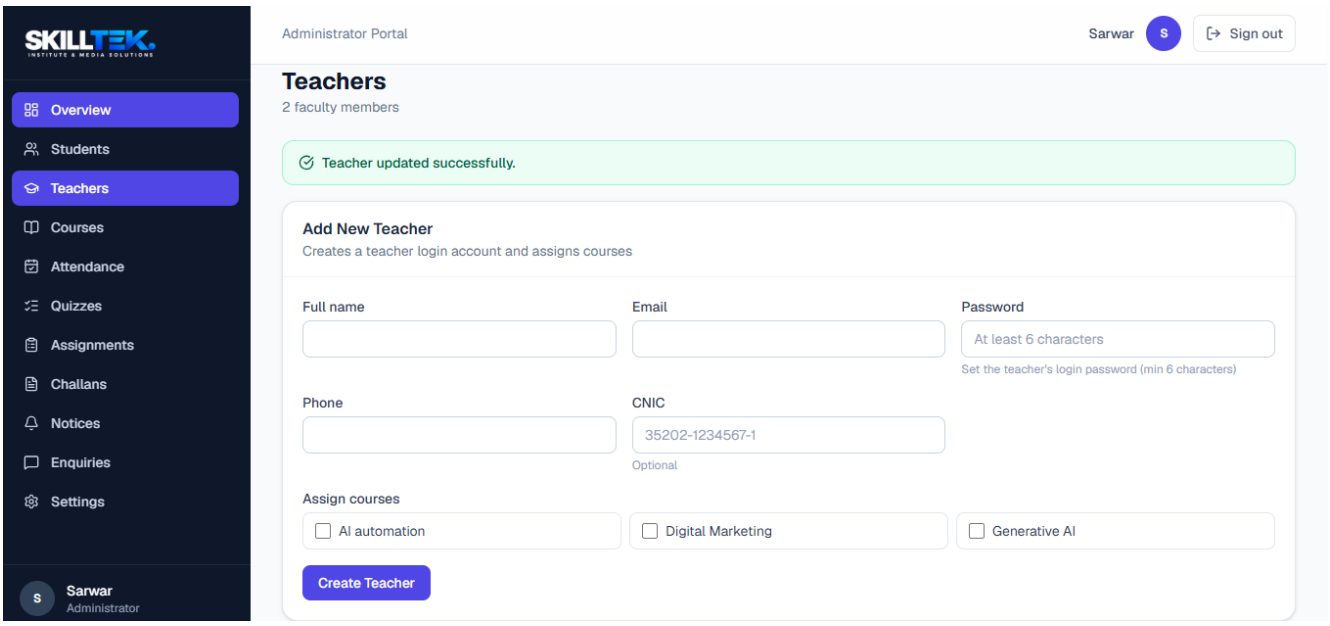

[BUG-04] Teacher Profile Updated with Alphabets in Phone Number Field

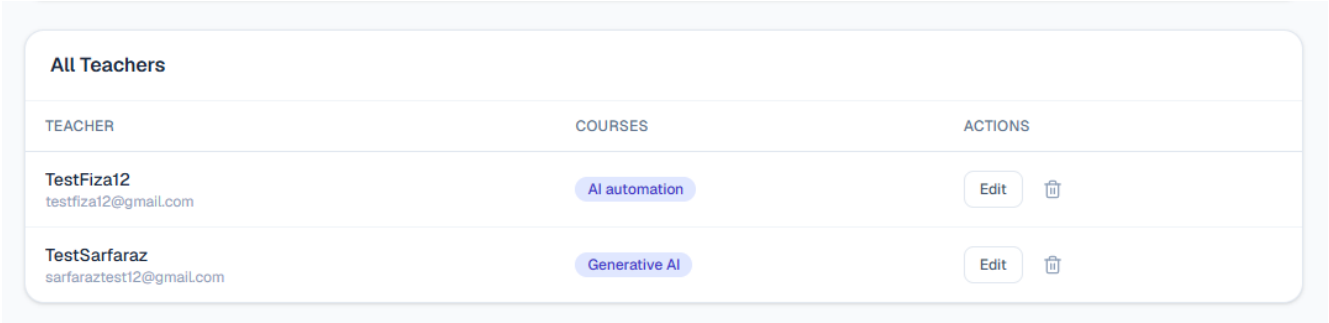

Module	Admin Portal - Teachers
Description	The Edit Teacher form accepts alphabetic characters inside the Phone Number field and saves the invalid profile data.
Steps to Reproduce	1. Log in to the Administrator Portal. 2. Navigate to the 'Teachers' section. 3. Click 'Edit' on any existing teacher record (e.g., 'TestFiza12'). 4. In the Phone field, enter text containing alphabets (e.g., 'ab12345678'). 5. Click 'Save changes'.

Expected Result	The Phone field should only accept numeric input (0-9) and validate phone length, showing an error if letters are entered.
Actual Result	The system accepts alphabets in the Phone field and successfully updates the teacher profile with 'Teacher updated successfully' message.
Visual Evidence	Screenshot 7, Screenshot 8 & Screenshot 9 (Shows 'ab12345678' entered in Phone field and successful update confirmation).

[BUG-05] Faculty Member Deleted Instantly Without Confirmation Prompt

Module	Admin Portal - Teachers
Description	Clicking the delete icon next to a teacher record instantly deletes the account without showing any confirmation popup (e.g., 'Are you sure you want to delete?').
Steps to Reproduce	1. Log in to the Administrator Portal. 2. Navigate to the 'Teachers' section. 3. Locate an existing teacher in the 'All Teachers' list (e.g., 'TestFiza'). 4. Click the red trash/delete icon under the ACTIONS column.
Expected Result	A confirmation modal should appear asking the admin to confirm or cancel the deletion to prevent accidental data loss.
Actual Result	The teacher record is immediately deleted from the database without any confirmation dialog or warning message.
Visual Evidence	Screenshot 10 & Screenshot 11 (Shows teacher list before clicking delete and immediate removal of 'TestFiza' after clicking).

Screenshot 10 & Screenshot 11

[BUG-06] Duplicate Student Enrollment Allowed with Same CNIC Number

Module	Admin Portal - Students
Description	The system allows multiple student records to be created and enrolled in the same course using the exact same CNIC number.
Steps to Reproduce	1. Log in to the Administrator Portal. 2. Navigate to the 'Students' section. 3. Enroll a student with a specific CNIC in a course (e.g., 'Generative AI'). 4. Add a new student with a different name/email, select the same course ('Generative AI'), and enter the exact same CNIC. 5. Click 'Create Student'.
Expected Result	The system should enforce CNIC uniqueness and block duplicate student creation with an error like 'A student with this CNIC already exists'.
Actual Result	Both student records ('TestUrooba' and 'TestNayab') are active in the same course with identical CNIC numbers.
Visual Evidence	Screenshot 12 (Shows 'TestUrooba' and 'TestNayab' both enrolled in Generative AI with identical CNIC '9999999999999').

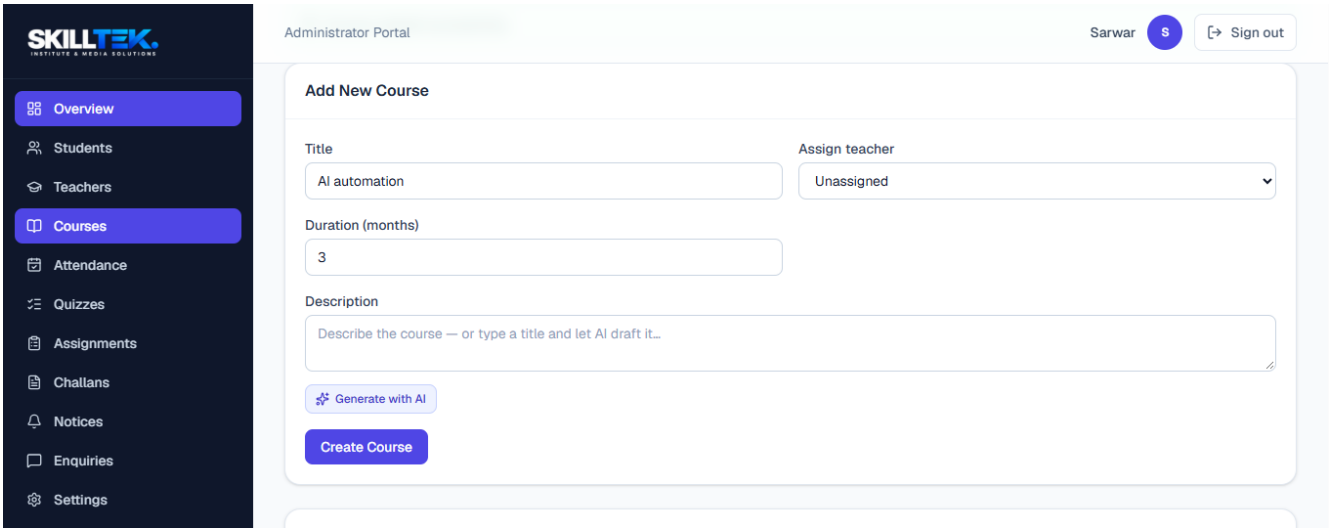

Screenshot 12

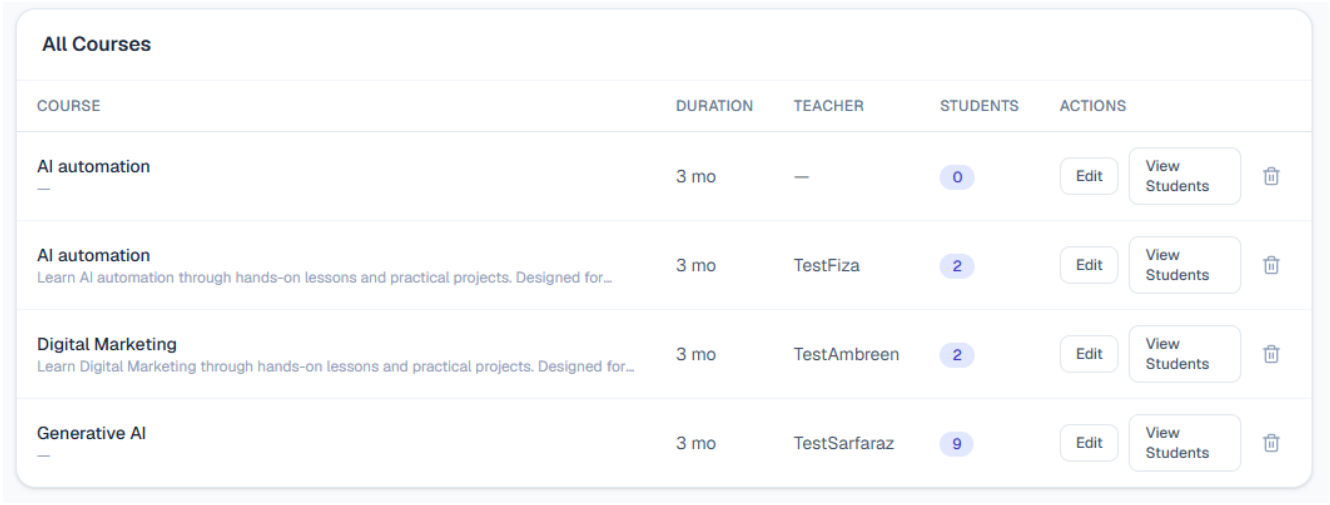

STUDENT	ADMISSION #	COURSE	TEACHER	GUARDIAN	STATUS	ACTIONS
TestUrooba testurooba12@gmail.com CNIC: 9999999999999	SKT-321323	Generative AI	TestSarfaraz	—	ACTIVE	Edit
TestNayab testnayab12@gmail.com CNIC: 9999999999999	SKT-193280	Generative AI	TestSarfaraz	—	ACTIVE	Edit

[BUG-07] Duplicate Course Creation Allowed with Identical Name

Module	Admin Portal - Courses
Description	The Add New Course form does not check for existing course titles, allowing duplicate courses with identical names to be created.
Steps to Reproduce	1. Log in to the Administrator Portal. 2. Navigate to the 'Courses' section. 3. Enter 'AI automation' in the Title field. 4. Set duration and click 'Create Course'. 5. Repeat the process using the exact same title ('AI automation') and click 'Create Course'.
Expected Result	Course title should be unique, and the system should reject duplicate names with an error message like 'Course title already exists'.
Actual Result	The system creates a second course with the duplicate name 'AI automation' alongside the existing one.
Visual Evidence	Screenshot 13 & Screenshot 14 (Shows creation form and 'All Courses' table displaying two separate 'AI automation' entries).

Screenshot 13 & Screenshot 14

[BUG-08] Website Enquiry Submitted Successfully with Alphabets in Phone Field

Module	Public Website - Request a Solution / Enquiry Form
Description	The public website contact form accepts invalid alphabetic inputs in the Phone field and successfully submits the lead.
Steps to Reproduce	1. Open the SkillTek public website (Services / Contact section). 2. Fill in Full Name, Email, and select Service of interest. 3. In the Phone field, type alphabetic text (e.g., 'ab12345678'). 4. Write a message and click 'Submit Enquiry'.
Expected Result	The Phone field should enforce numeric validation and show an inline error like 'Please enter a valid phone number'.
Actual Result	The form accepts the alphabetic phone input and displays a 'Thank you! Your enquiry has been received' confirmation message.

Visual Evidence	Screenshot 15 & Screenshot 16 (Shows form with 'ab12345678' entered in Phone field and successful submission screen).

Screenshot 15 & Screenshot 16
